

Hi Fcc

I am really do concern that if fcc set up a new rule for SorensonVRS interpreters service to speed up there deafs's customer's call will lose the service for 24 hour each days and 7 days week open I rather to have SorensonVRS interpreter Service stay open 24 hours each day and 7 day week open becuae we really need to call anyplaces itis still very important for any deafs's customer and include me in the day and night and weekday and weekends it is alot easier for me and another deafs's customer to use communcation with SorensonVRS interpreters service to stay open 24 hours each day and 7 days week open Please do not set up the SorensonVRS interpreter to have a time limit service for us alike open 6 am to 10 pm each day and include weekends and weekdays becuae that is a very important call that I call sick today and I have to call my supervisor that very early morning alike 5:30 am between 6 am today to get a hold my supervisor if you set up no SorensonVRS interpreters on weekends and time limit that is biggest wrong and will hurt me and our deafs's customer feel that please keep SorensonVRS interpreters Service stay open 24 hours each day and stay open for 7 days a week and include any kinds of holidays no matter what kind holiday a small holiday or big holiday please keep open the SorensonVRS interpreter's service stay on 24 hours each days and 7 days week open it is nice to have a speed to answer our deafs's customer but we still need open 24 each day and 7 days a week it make me feel comfortable to call anyplaces in diffrent days and night and times ok thank you hopefulyou can email me back soon asap to help our communicate feeling my email is blueblazer2000@comcast.net ok thank you have a nice day from Ken Mahoney
